

# ENGLISH

This term, Kindergarten will be exploring a range of fiction and non-fiction texts. Students will continue to build on their comprehension strategies with a focus on predicting, making connections and retelling a story. They are continuing to develop and refine their early reading strategies of using picture cues, identifying initial sounds and using one to one correspondence.

In writing, students will be focusing on how to write a simple recount and writing descriptions using colour, size and texture words to make their sentences more interesting. In phonics, students will be learning and using single sounds to read and write simple words. Students will learn to identify the difference between a phoneme (sound) and a grapheme (letter).

# KINDY 2022 TERM 2 OVERVIEW

## PDHPE

In PDHPE, students will explore the concepts of nutrition and safety. We will discuss healthy eating habits and ways to stay safe in different situations, for example, road safety, sun safety and water safety. In sport, we are continuing to develop our fundamental movement skills such as skipping, hopping and throwing and catching. We will also be learning to use a range of locomotor and non-locomotor movements to play simple games.

## CAPA

Kindergarten will be focusing on dance. Students will learn how to move and use their bodies by experimenting with different techniques.

# MATHEMATICS

Kindergarten will continue to develop their skills in whole number concepts such as identifying and writing numbers and counting forwards and backwards from any given number in a range of 1–20.

Students will also focus on addition by combining collections of objects to find a total number. They will learn to name, sort and describe two-dimensional shapes and collect and interpret data from simple picture graphs. We will also be focusing on explaining where an object is using everyday positional language such as above, next to, between and left and right.

# SCIENCE

In science, students will be learning about living things. During the term they will discuss and observe what living things can do and what they need to survive, such as food and water.
