

ENGLISH

Students will be focusing on formal persuasive writing. During the term, they will also be taking part in an Author Study concentrating on the concepts of point of view and argument. In addition to this, students will be exposed to various opportunities to enhance their speaking and listening skills.

YEAR 4 2020 TERM 3 OVERVIEW

PDHPE

In PDHPE, students will be exploring child protection. They will be learning about privacy, safe networks and skills to be assertive. In addition to this, students will be taking part in sport lessons developing and applying their fundamental movement skills to games.

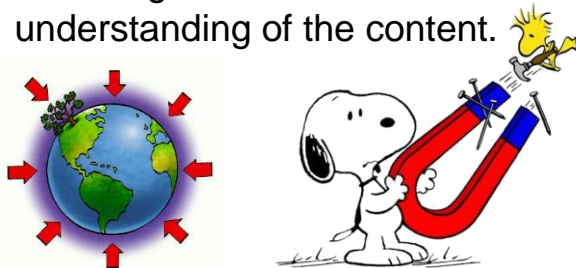

MATHEMATICS

Students will be revising the concepts of multiplication and division. Students will then be exposed to fractions and decimals and learn ways to model and compare the two. In the measurement strand, students will be focusing on volume, capacity, mass and time.

SCIENCE

Students will be exploring the Physical World strand of science and will gain a deeper understanding of contact and non-contact forces and their effect on an object's motion. In addition to this, they will be taking part in scientific experiments and design and make challenges to enhance their understanding of the content.

CAPA

This term students will be taking part in drama lessons. They will explore point of view through different forms of drama such as reader's theatre, masks and plays. Students will develop performance skills through a range of practical experiences that build their understanding of the elements of drama.

GEOGRAPHY

Students will be focusing on the Earth's environment as part of their Geography unit. They will investigate different types of environments and discuss ways that people can live and use things more sustainably. Throughout the unit students will utilise the geographic tools of inquiry to gain deeper understanding of the content.
